The slide features a decorative border with various autumn-themed illustrations. At the top, there are several large leaves in shades of orange, red, and yellow, along with a single acorn. The bottom border is similar, with leaves and a small cluster of yellow berries. The background is a solid light orange color.

School Improvement Focus Points

1. High Quality Instruction
2. Focus on MTSS (Multi-Tiered Systems of Supports)
3. Positive School Culture

The Science of Reading

What is the Science of Reading?

Instructional Shifts in OCPS

The **Science of Reading** is research from thousands of studies that tells us about how people learn to read.

$$\begin{array}{|c|c|c|} \hline \text{Word} & \times & \text{Language} \\ \text{Recognition} & & \text{Comprehension} \\ \hline \end{array} = \begin{array}{|c|} \hline \text{Reading} \\ \hline \end{array} \text{Comprehension}$$

Structured Literacy is an approach to reading instruction that is explicit, systematic, cumulative, sequential and multisensory.

OCPS is creating a stronger alignment with the Science of Reading through explicit instruction for both **word recognition** and **language comprehension** to help students become successful readers.

- Read different types of books
- Ask questions before, during, and after reading
- Play word games
- Discuss new words included in the text
- Ask your child's teacher for more tips
